SYSTEM INTERGRATORS FOR THE MODULAR HOUSING INDUSTRY

DESIGN & CONSULTANCY

ROBOTIC SOLUTIONS

FRAMING SYSTEMS

BOX BUILD PRODUCTION SYSTEMS

ASSEMBLY & FINISHING LINES

DESIGN

We have the design capabilities to solve highly complex production, processing & material movement problems.

FACTORY ACCEPTANCE TESTING

We provide in-house design validation & performance testing of all of our systems prior to installation.

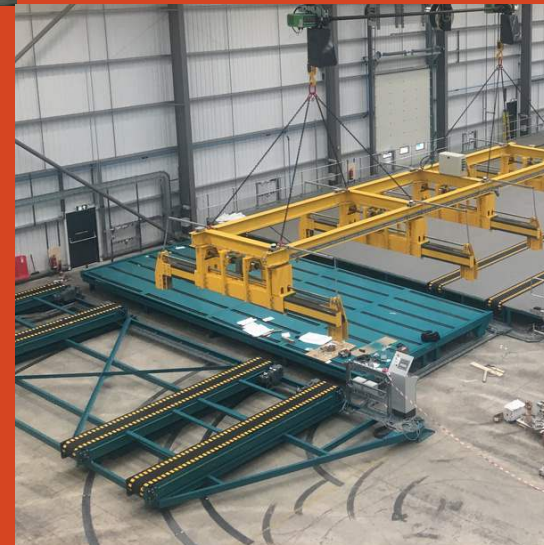

CONSULTANCY

We provide expert consultancy services tailored to the unique and evolving needs of modular manufacturers.

INSTALLATION & COMMISSION

We install & commission all our equipment & systems, ensuring each system is set up correctly from the start. Reducing potential issues & guaranteeing the system operates exactly as intended.

MANUFACTURE

We manufacture in-house, giving us full control at every stage & ensuring every system is built to the highest quality.

35+

YEARS INDUSTRY EXPERIENCE
