

FTS-100 FRAMING TABLE SYSTEM

Engineered for LGS & timber frame production.

Streamline the fabrication of wall, floor and roof panels with speed, precision and repeatability.

Frame Faster, Build Smarter!

Square & True Panels

Ensures repeatable alignment of framing members for consistently square panels.

Pneumatic Transfer Rollers

Raises the frame off the table for easy transfer to the next station.

Modular Design

Easily add or remove sections to suit your product size.

Improved Ergonomics

Framing at an optimal working height minimises physical strain.

FTS-100 TECHNICAL SPECIFICATIONS

Air Supply	Minimum 4-bar supply
Lift Stroke	10mm from fixed bed to transfer height
Lift Speed	Approx. 5 seconds
Payload	1300 kg
Support Rollers	Ø40mm steel roller
Framing Size	Maximum 3600mm wide
Modular Section Size	Built in 3000mm long modular sections
Working Height	690mm
Transfer Height	700mm (raised rollers)
Control	Manually operated pneumatic lever
Datum Support	Adjustable datum to suit a variety of panel sizes, with support magnet for LGS & steel
